

SOLAR POWER MAKES GOOD BUSINESS SENSE

In today's challenging economy, businesses large and small are looking for innovative ways to save money. With conventional energy costs eating into company profits, more and more companies are viewing solar energy as an effective way to control spiraling energy costs.

EMPOWERING YOU TO GO SOLAR

So what's holding you back? Does the process of installing a solar energy system seem daunting? Are you concerned about large out-of-pocket costs and the maze of approvals and paperwork, not to mention financing? With its Solar Energy division, Ole Hansen & Sons shoulders all the financial and administrative burden, leaving you to simply reap the savings.

TURNKEY SOLUTIONS

Ole Hansen & Sons is your single-source provider of solar systems that make sense economically and environmentally. We offer customized design-build solutions for commercial and industrial customers.

Your business benefits from a turnkey solar power system with zero out-of-pocket costs.

With Ole Hansen & Sons, going solar becomes a hassle-free process. We handle every phase from planning, financing and approvals to installation, operation and maintenance. You just say "yes" and Ole Hansen & Sons takes care of the rest.

- **Substantial savings on energy costs – guaranteed**
- Turnkey solar systems for commercial and industrial facilities of all sizes
- Rooftop and ground installations
- Zero up-front costs to you

BENEFITS BEYOND JUST THE BOTTOM LINE

With guaranteed savings on energy costs, a solar system is a smart choice for increasing your company's profitability. It is also an opportunity to brand your company as a responsible corporate citizen. Your solar system will be a visible statement of your business' commitment to environmental stewardship, which is becoming increasingly important to today's consumers.

OLE HANSEN AND SONS... A NAME TO TRUST

The Solar Energy Initiative is backed by the reputation and financial stability of Ole Hansen & Sons, one of southern New Jersey's leading commercial real estate investors and developers, with a track record of success that dates back to 1931.
